Accenture Whole Testpaper

First of all I would like to thank yuvajobs for helping me in being the part of accenture family.........

The Selection Procedure 4 accenture is like this:-
We had the written exam on 19th aug 2007, it was an offcampus recruitment,around 8000+ students appeared for the test...
out of which 1800 were shortlisted for further rounds...

The written consists of three section :- **1) English**
2)Aptitude
3)Analytical

In english section there were questios like,fill in the correct preposition ex:- He kept quite as he was afraid of being laughed_____ a.on b.at c. upon. d. into   The correct option is b.   Then there wer questions like fill in the correct articles...ex:-I kept _____glass off juice on the table a.)the b)a c) an d) no article required

other questions wer to find the synonym of the given word here also 4 options wer given(very easy) then there were 2 passages..first one is always easy u can find the ans directly in the passage without reading it fully....the second passage is based on understanding answers are not direct but its also easy....

In Aptitude section there are 5 questions on venn diagram, some on set theory,ages, blood relation,data sufficiency,ranking,ques on probability,and if * means 0 and $ means 1 then what,s the value for 256*7+8 there wer 5 such questions easy but time taking.........just go through R.S agarwal then this section will be a child play 4 u.....

In Analytical there wer question like some conditions were given and based on that 4-5 questions were there...
then if * represents + ,+ means -,- means/ , then wats the value of the following expression....there were 4-5 such questions

These questions are time taking i solved 2 of them in rest 3 i made wild guess.......

Its very easy to crack the test just the important thing is proper time management as u have to do 55 ques in 60 mins...first solve those ques which u can do fast and perfectly and then attempt rest doing this u will find dat u,ve attempted 33-35 question in just half of time..(i did the same)

Chapters to be done-blood relation,data sufficiency,ratio prop.,percentage,ranking,sitting arrangement,boats and streams,trains,time and distance, time and work,venn diagram from R.Sagarwal.....try analytical reasonin based question 4m any MBA book.....remember friends written is "verrrryyyyy easyy......"

Then there is a gd round they asked us to decide the topic but since they wernt satisfied with the topics we gave....
they gave us "is the economic or financial position effecting the judicial decision Today? "

then he gave us 1 min to think over it.....he told us he was looking for communication skill, thought process, how u deal with ur group

U always get bonus point for starting the discussion...dont panic if u dont start u just hav to be confident and fluent in english...even if u dont know topic too well dont remain dumb speak wrong but confidently and fluently.......these people are very particular abt fluency in english

After that there was hr round..they ask abt company and general ques like why accenture???so go prepared

we were not given any ppt so better gather the info abt accenture urself from sites and go prepared...i was asked top 3 IT companies.

Then I had **Technical round**

Sir:-   Hello , had a long day 2day??

ME:- (with a smile)Yes sir...

Sir-   Tell about urself

ME:- I told abt my education journey till now

Sir:-   So u,re a CS student.....write a program 2 chk if a no. is prime or nt

ME: Did it

Sir:-   Make it more efficient

ME:- Did it

Sir:-   Write program on polymorphism

ME:- On java???

Sir:-   Any language....u know java??(he was impressed)

ME:- I showed him overloading....

Sir:-   Wat are the layers of tcp/ip protocol

ME:- Told

Sir:-   (with a smile)ok u can leave

ME:- Thank you sir, have a nice day(with a smile)

Some friends of mine were asked questions on s/w engineering....testing,sdlc...etc....so go prepared

VERY IMP NOTE** its NOTHING that droppers are not selected...this is a huge misconception people have about accenture....many of my friends didn,t even appear 4 test ,coz of it.........I am also a dropper and is selected in accenture

SO ALL THE DROPPERS RELAX U HAVE 100% CHANCE OF GETTING SELECTED...
